General roof repairs are our specialty. We have actually been in the industry for years which means we have experience delivering all kinds of repairs on all kinds of roofing systems.

Tile Roof Repair

Tiles are a popular choice of material for numerous roofs in Merritt Island. While tiles look excellent, there are a number of things that can fail which will require repair work. Common kinds of repair work that can be required for tile roofs consist of rebedding and repointing, cleaning of moss development is another typical requirement.

Roof Leak Repair

If you have actually found a leakage in your roof it's crucial to get it examined out as rapidly as possible, as there might be more damage in the roof than you understand. Leaks can trigger structural damage over time which can lead to increased leakage and in bad cases even roof collapse.

Slate Roof Repair

If you have a slate roof that requires fixing we can assist. While slate roofs are normally durable, they can still end up being vulnerable in specific conditions, such as if they're not fitted effectively initially and enable weather condition damage to permeate through. The nails that are used to keep the slates in location can also waste away gradually, meaning the tiles can vacate place and expose the roof to water damage. Extreme storm conditions can also damage slate roofs by moving the slates out of place and exposing the roof to weather damage. Slate roof repairs are a specialty of ours and we're able to offer responsibility complimentary quotes and consultations to repair these.

Metal Roof Repair

Metal roofing is popular in Merritt Island for its price, recyclability, toughness, non-combustibility and huge array of colors. We use only the most dependable steel for all our metal roofing tasks. Our suppliers are renowned for providing the toughest products for roofs in Florida, so you can have assurance knowing your brand-new roof will last for numerous years to come. The safety powder covering makes our steel much more durable than zinc and aluminum products, and with correct installation, have to last for decades to come.

A metal roof replacement will normally take around 1-2 weeks, while a roof repair will typically take 1-2 days. Both these time frames are dependent on the scale of the job and the weather conditions. But don't stress; we do all roof replacements in a detailed procedure to guarantee that your home is waterproof at all times.
